

COPPA Compliance Form

Dear Parents of children under the age of 13,

In order for me (Song Kim) to provide your child with the tools and applications needed to learn computer programming, I and the online applications we will use need to abide by federal regulations that require a parental signature as outlined below.

We will utilize several computer software applications and web-based services, operated both by me and by third parties. Depending on your child's interests, these may include Scratch, Repl.it, Trinket.io, phpBB, and my personal website. A complete list of the programs with the privacy policy and terms of service for each can be found on my website: <http://songeunkim.com/tgcc/privacy.php>.

In order for our students to use these programs and services, certain personal identifying information -- generally the student's username and email address -- must be provided to the web site operator. Under federal law entitled the Children's Online Privacy Protection Act (COPPA), these websites must provide parental notification and obtain parental consent before collecting personal information from children under the age of 13. For more information on COPPA, please visit <https://www.ftc.gov/tips-advice/business-center/guidance/complying-coppa-frequently-asked-questions>.

The law permits schools and educators to consent to the collection of personal information on behalf of all of their students, thereby eliminating the need for individual parental consent given directly to the web site operator.

This form when completed below and on file will constitute consent for the services listed to obtain your child's email address and username.

Student Name: _____

Parent/Guardian Name (PLEASE PRINT): _____

Parent/Guardian Signature: _____

Date: _____
